- Generate comprehensive reports
- Use collected data to become a print consultant

Simple, Secure, Transparent

The download and installation of the PrintFleet Optimizer Data Collector Agent takes under 5 minutes, and Bluemega Technical Support will walk you through the initial setup.

From then on, the Data Collector Agent will run as a Windows service in the background, allowing it to operate 24 hours a day, 7 days a week. After each discovery, the collected data will be sent the web site.

The Data Collector Agent uses one-way communication only. No personal or user data is collected. The collected data is sent via Port 80 or Port 21 to PrintFleet Optimizer's web server, which is physically stored in a Class-A data center. Data is mirrored and backed up daily.

Support Programs

Training

Sales, marketing, and technical training sessions are available in both online and on-site formats.

Technical Support

Bluemega provides phone support during business hours, email support, and comprehensive user manuals.

Custom Branding

The PrintFleet Optimizer Custom Branding Package allows you to take advantage of our award winning marketing and design team to customize the software interface and support material to match your current marketing and branding initiatives.
