

**doc-Q-view PCL** and **doc-Q-view PostScript** are snap-in modules for doc-Q-manager. The standard product provides job preview and reprint functionality for native Windows EMF and ASCII data formats. These two **doc-Q-view** snap-ins provide the same functionality for data streams that are already PCL or PostScript print encoded

### Preview

Job preview allows jobs or sections of a job to be previewed and browsed prior to printing to ensure the correct item or version has been selected. The preview function includes options for multi-page thumbnail display, moving the display and a zoom facility to check detail where required.

### Reprint

Using the reprint feature, any page or range of pages of a job may be selected for reprint without having to revert to the host application. Reprints may be to the same queue as the original or to another. The function includes options for choosing multiple copies of the section to reprint, as well as options to collate or not.

### Features of doc-Q-view

- Supports PCL & PostScript encoded print datastreams
- PCL support up to PCL5e, PCL5c and PCL-XL/PCL6
- PostScript support up to Level 3.
- Preview jobs before print or reprint
- Multi page display and zoom options
- Reprint any page(s) without reverting to host application

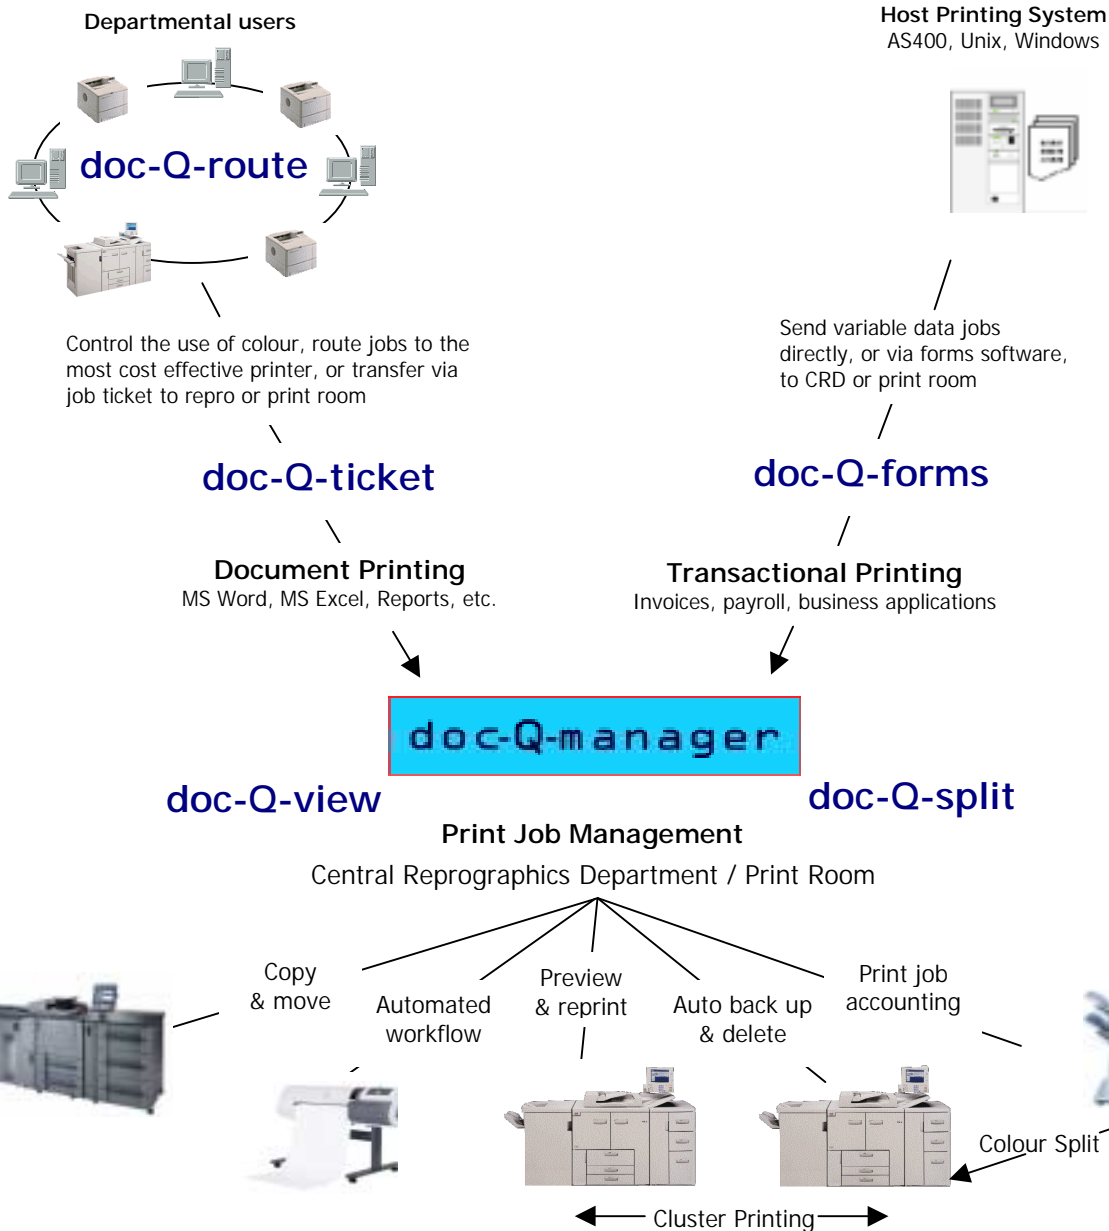

### Data streams supported

PCL support:  
Up to PCL5e, PCL5c and PCL-XL/PCL6.

PostScript support:  
Up to Level 3.

## Software to control document and transactional printing

### Minimum system requirements:

**doc-Q-manager:** Windows® 2000 + SP3 (Professional or Server) / Windows® XP Professional / Windows® 2003 Server, IBM® compatible PC, Intel P4 2.2 GHz or higher, 512Mb RAM, 40Mb available disk space for installation, the spool folder must be on an NTFS formatted drive with adequate free space for spool file storage (suggested 10Gb).  
 To receive notification pop-up messages, user's PC should be running Windows® Messenger.

**doc-Q-view:** doc-Q-manager<sup>†</sup>, 40Mb available disk space for installation.

**doc-Q-split:** doc-Q-manager<sup>†</sup>.

**doc-Q-ticket Form Server:** doc-Q-manager<sup>†</sup>, 8Mb available disk space for installation.

**doc-Q-ticket Form Designer:** Windows® 2000 + SP3 (Professional or Server) / Windows® XP Professional / Windows® 2003 Server, IBM® compatible PC, Windows® operating system minimum hardware requirements, 8 Mb available disk space for installation, Internet Explorer® 5.5 or higher.

**doc-Q-ticket Client:** Windows® NT4 + SP6a / Windows® 2000 (preferably with SP3) / Windows® 2000 Terminal Server Clients\*\* / Windows XP / Windows 2003 Server, IBM® compatible PC, Windows® operating system minimum hardware requirements, 8Mb available disk space for installation, Internet Explorer® 5.0 or above, screen resolution of at least 800 by 600.

**doc-Q-ticket Web Service:** Windows® 2000 (preferably with SP3) / Windows® 2003 Server, IIS version 5 / IIS version 6, 1Mb available disk space for installation.

**doc-Q-forms:** Windows® 2000, IBM® compatible PC, Intel P4 2.2 GHz or higher, 512 Mb RAM or higher, 10Mb available disk space for installation, Microsoft® Office 2003.<sup>†</sup>

<sup>†</sup> For performance reasons it is not recommended to install doc-Q-forms on the same PC as doc-Q-manager.

<sup>‡</sup> doc-Q-ticket Form Server, doc-Q-split and doc-Q-view modules must install to the same PC as doc-Q-manager.

\*\* Terminal Server support is for clients only. doc-Q-manager must run on a separate print server PC.

**doc-Q-route Server:** Windows® 2000 + SP3 (Professional or Server) / Windows® XP Professional<sup>†</sup> / Windows® 2003 Server, IBM® compatible PC, Intel P4 2.2 GHz or higher, 512Mb RAM, 10Mb available disk space for installation, adequate hard disk space for spool file storage (suggested 10Gb).

To receive notification pop-up messages, user's PC's should be running Windows® Messenger. To receive emails there should be an SMTP server accessible. The Server runs as a Windows Service.

**doc-Q-route Admin<sup>‡</sup>:** Windows® 2000 + SP3 (Professional or Server) / Windows® XP Professional / Windows® 2003 Server, IBM® compatible PC, Intel Pentium III 800 MHz or higher, 128Mb RAM, 10Mb available disk space for installation.

<sup>†</sup> See [Microsoft Knowledge Base article # 815913](#)

<sup>‡</sup> doc-Q-route Admin may be run remotely providing the user has administrator rights to the doc-Q-route Server PC.

### Printer Support

**doc-Q-manager supported print job languages:** ASCII (copy / move / reprint / split / preview), Windows® EMF (1.003, 1.008) (copy / move / reprint / split / preview), RAW (copy / move), RPCS (page count, copy / move).

**doc-Q-view supported print job languages:** Adobe® PostScript®, Adobe® PostScript® level 2, Adobe® PostScript® level 3™, PCL4, PCL5, PCL5e, PCL5c, PCL6 / PCL-XL.

**doc-Q-ticket supported printers:** Any Windows® supported printer.

**doc-Q-split supported print job languages:** Windows® EMF (1.003, 1.008).
